

ABERRI EGUNA 2005

Euskal lurraldeak elkartuta bere etorkizunaren jabe Baztan, Amaiur monolitoan

Today, reunited elect and the elect ones of all the territories of Euskal Herria, in Amaiur like tribute to the defenders of its Castle, last defenders of the Kingdom of Nafarroa, we celebrated the Aberri Eguna symbolizing by means of our meeting that the Basques of each one of the territories we are descending of a same trunk, shared a common identity and we want to share a same future. A future peacefully, respect and coexistence with other towns.

A future that we our self we want and we must construct. In this place, before this simultaneously simple and great monument, Basques and elect Basques, reunited under the name of UDALBILTZA, representatives of a nation seated in its seven territories we proclaimed:

- ♣ Our manifest will to construct and to decide our own future.
- ♣ Our will to work by the fortification of our language, our common identity and our Basque culture?
- ♣ Our will to work peacefully by a future, in freedom and harmony with all the other towns.

We also expressed our commitment, our social contract with Euskal Herria.

We are conscious of the historical importance that the moments that we lived are going to have for the future of our Town. Let us plant and we vindicated for that reason a future constructed on two bases: the respect to the life and the respect to the right to decide of the Basque Town.

We demanded to the State that opens to a process of dialogue and negotiation on the base of the Proposal Statute, again approved by the absolute majority of the Basque Parliament, fundamental instrument for the political normalization and answer in positive key to desires of normalization and peace of most of the citizens and Basque citizens.

We do it, from the confidence of that it offers to the Basque society ethical principles and democratic untouchables, a clear and defined way, a political Proposal in vigor, a solid guarantee of fulfillment of our commitments and a project of future to continue advancing in the social construction of Euskal Herria. We defend a solid project for the coexistence, offer work, spirit and will.

We defend a future peacefully: We showed our commitment to defend the human rights of all the people and consequently, we reiterated our exigency to ETA so that it leaves the violence definitively and of the word to the society.

We showed our commitment to respect this will, the will of the Basques and the Basques, of all those that today we lived and we worked in Euskal Herria, without no type of exclusions. It is time to decide.

GORA EUSKADI ASKATUTA!

In Amaiur, to 27 of March of 2005
