

UDALBILTZA®: INSTITUTIONAL DECLARATIONS

2005

ANSWER To the POLITICAL DECISION

UDALBIDE Elkarlan Elkarte is a cohesion bottom that works by the national construction of Euskal Herria. "That gives the one that it has still more", if the one that had to give does not have will to do it. The axis of the UDALBIDE activity is, exclusively, the promotion and the fortification of the euskera, the Basque culture and its identity. Without more reference than his connection with the world of the euskera and the Basque culture, never it has considered if the one that approached to him to ask for its aid had political militancy or card of affiliation in some political party. Its objective goes much more there of the party interests: to guarantee, with all dignity, all the rights of all the citizens without exception, of this Euskal Herria that watches towards Europe.

For that reason, in opinion of UDALBIDE Elkarlan Elkarte, the decisions on the subventions had to be outside the confrontation between the political parties. In the plenary session of the Basque Parliament if EHAK and Aralar had voted positively to the game destined to UDALBIDE, it would have left ahead. But they did not decide it thus. Paradoxical what: To denounce the shortage of national construction in the budgets and to reject a game that yes has it! We want to review the irresponsibility of these two parties, that due to its attitude and decision, the UDALBIDE budget has been reduced in a third. This, we want or no, it will have his consequences in the work of this association. , and as the Council of Direction of UDALBIDE has decided, it will center all his efforts in finding other sources of financing yet, so that, if not all, yes most of them or, at least, most significant, can be carried out. Everyone is responsible for its actions and consequences.

Those that we formed UDALBIDE we know clearly which is our position and responsibility before the national construction and, over all the limitations, we will continue working of responsible and consequent way.
